

Climate Change Starter

Climate change will have a large impact on all aspects of our lives, including sports.

Below are listed some effects of climate change:

Increased global temperatures

Frequent Flooding

Drought

Snow shortage

Reduced water quality

Explain how each will impact the ability to play/perform at an individual, team and sport level.

Sporting practices and events are also criticised for generating significant pollution and waste. Why do you think this is the case?

Extension Activity - You have been tasked with improving your local sports club's carbon footprint. Describe 3 initiatives that you will put in place to reach this goal.

Which stakeholders do you think would help you the most in achieving these goals?

- Teammates - Other Sports Teams - Coaches - School Administrators/Local Councils - Financial Partners
