

Technology in Sport Starter Resource

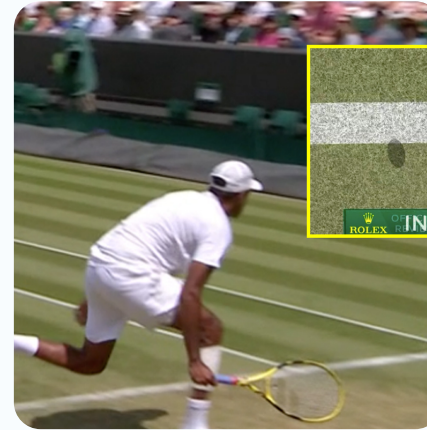

Technology is widely used in professional sport in order to support officiating.

Football

Cricket

Tennis

Rugby

Explain how technology is used to support officiating in each of the sports shown above (if necessary, conduct your own research on this topic).

In your opinion, which of the sports shown above has the best system for using technology during matches and events? Why?

6 sports are shown below. Pick one of these sports and decide how technology can be implemented to support officials.

Gymnastics

Golf

Volleyball

Boxing

Swimming

Netball
