

Technology in Wimbledon

Wimbledon may be full of tradition, but technology plays a big role behind the scenes. Modern tech is helping to shape how matches are played and watched.

Match up the different technology used in Tennis.

- 1. Hawk Eye**
- 2. Smart Rackets**
- 3. IBM AI Analysis**
- 4. Player Wearables**
- 5. Electronic Scoreboards**

- A. Measures swing speed and spin rate**
- B. Automatically updates live match scores**
- C. Tracks heart rate, movement, and exertion**
- D. Tracks ball location for line calls**
- E. Measures swing speed and spin rate**

Debate the pros and cons of replacing line judges with technology.
